Dear Friends:

Ten years ago in 2009, four colleagues began a journey together in starting Trigon Associates, llc (Trigon). As you may recall, this was a challenging time for our country economically, but we had no doubts regarding our decision or our potential to succeed. The past 10 years have been filled with opportunities, challenges, highs and lows—with the most important aspect being the loyal support from our clients, teaming partners, consultants and staff. We truly appreciate this support as, without each of you, our 10<sup>th</sup> year as a firm would not have been possible.

We embarked on the journey that is now Trigon with the goal of becoming a leader in infrastructure and program management in the Gulf Coast area. From the early beginnings, the four partners handled everything from answering phones and IT issues to site visits and preparing deliverables. At that time, we could only dream of one day growing into the global company we are today, managing active projects in excess of \$40M. This growth and success was made possible by the dedication and hard work of the entire Trigon team by applying our core values – Quality, Commitment, and Client Service – to every project and every interaction.

We are proud of the awards and recognition that Trigon has received over the years, especially the regional “Best Places to Work” and national “Best Firms to Work For” awards, making the Inc. 5000 list, 2016 LA PTAC Contractor of the Year, and named to the NOLA 100. We continue to aim higher and improve always.

This year is shaping up to be our most successful, so far. Not only are we celebrating our first 10 years in business, but we have also expanded our service to even more clients in the Gulf Coast region and have established even more of a presence in the international development sector. Currently, Trigon is serving as the prime contract holder on projects in Jordan, Palestine, and Vietnam.

We could not have achieved any of this without the more than 150 talented and loyal professionals who have been a part of our team over the past decade. Their hard work and dedication to our core values is the reason we continue to grow and accomplish great things. We are also grateful to our clients and teaming partners who believe in Trigon and trust us to bring their important projects to successful completion. We appreciate your continued support and look forward to what the next 10 years have in store for Trigon.

Sincerely,  
**Trigon's Principals**
